Indices evaluated by LIC using genomic information where applicable

Displayed test day milk volumes can be derived if single sample testing has been used

D = Lactation details include at least one derived test

† Historic animal, no longer current in the herd

d = Single sample test derived results

*** Abnormal**

Test Codes

1 Missed test
2 Mixed or spilt (on farm)
3 In season
4 Held milk
5 Sample mixed or spilt (by LIC)
7 Running with calf
8 Sick
10 Normal Single Samples
90 Sample Misplaced in tray
